ABOUT ME

I am a full-stack software engineer with a passion for building intuitive user interfaces and a knack for problem solving.

EDUCATION

September 2021 -
Present

Bachelor of Science: Computer Science & Software Engineering

Towson University - Towson, MD

Expected Graduation: May 2024

Relevant Coursework

- **Software Engineering**
Led a student team in building a full-stack application that recommended recipes based on ingredients you had on hand.
- **Web-Based Programming**
Explored web-based programming in React and NodeJS.
- **Software Quality Assurance and Testing**
Dove into software testing including unit and regression testing.

CAREER SUMMARY

June 2022 -
Present

Software Engineer

SecurEd Inc, Towson, MD

- Designed and built groundbreaking software in Angular and NodeJS for emerging NSA cyber education initiatives
- Served as team lead during the implementation of products and features
- Actively contributed to the code review process to establish and maintain a high-quality bar of code cleanliness and design integrity
- Identified and corrected errors in code to improve system reliability
- Leveraged Agile principles and participated in ceremonies to deliver features efficiently
- Connected with users to collect feedback and refine requirements
- Presented new methodologies and products to cyber educators at national conferences and trainings
